Join us in welcoming Christian Arciaga, our new Maintenance Director! Christian comes to us with over a decade of experience managing residential, commercial, and HOA communities throughout Hawaii. We are so excited to welcome him and his leadership to the team!

MAINTENANCE TIPS

AC Reminders

- Change your air filters monthly and every two weeks if you have pets.
- Vent registers should be dusted and cleaned regularly to prevent dust and debris buildup.
- Fan should be set to Auto.
- Thermostat should be no lower than 72 degrees to ensure proper function and humidity levels.

RESIDENT REVIEWS

- ★ "The gentleman that came out was so sweet, he called us to let us know he was at the house (we weren't home) and he let me know that we had left our front main door open. I asked him if he could please close it and thankfully he did because it was raining by the time he got back! Thanks so much for his politeness and going the extra mile to make sure the house was taken care of and we were aware of our door being open when he arrived!"
- ★ "Nik and his crew are, without a doubt, the best maintenance team we've had in three different Hunt homes on three different military installations."
- ★ "They quickly fixed our garage door, improved our water pressure, repaired our window seals, serviced our dehumidifier, and completed every work order we submitted. Nik made sure everything was tested before they left and had his crew double check that each repair was actually working."
